

Letter written by George Romney to Mitt Romney, March 12, 1956.

March 12, 1956

Dear Mitt:

The other morning you asked me if I could get you an American Motors car. I was thrilled when I learned a few days ago that one of the big toy manufacturers is making a new automobile toy of the Rambler.

Enclosed is a picture of it. I knew that you would want one and I have placed an order but they will not be ready immediately because they have just been designed. You will have it as soon as they can make delivery.

Happy Birthday, and much love,

Enclosure

March 12, 1956

Dear Mitt:

Your Mother and I thought that you would prefer to select a bicycle for your Birthday present.

After all, this is a bicycle that you will be using for many years to come and it may be the only one you will ever have. That's why we thought it ought to be the one of your choice.

As you know, there are standard types and racer types - that's why, for your birthday, you are getting the catalogs to make your choice rather than one of our choice. I hope that will give you a double birthday - the fun of picking it out, and the fun of unpacking it when it comes.

Happy Birthday, and loads of love,
