Press Release
March 29, 2010

We have attempted to meet with the District Attorney to obtain the specific evidence as it relates to South Hadley High School. Due to their unavailability, we will be unable to meet until the end of the week and possibly not until next week. We will then review this evidence, and particularly the new information which the District Attorney's Office has, but did not come to light within the investigation conducted by the school. Once we are able to obtain this information we will be able to make a more comprehensive statement and possibly take further action against the students still attending South Hadley High School.

It is important to remember that this is the District Attorney's investigation and any further questions should be directed to that office.

Assistant Superintendent
South Hadley Public Schools
